1. Each Blackboard resource is assigned an icon.
    1. The resources can be Assignments, Blackboard Folders, Class Recordings, PDF's, etc.
    2. When interacting with an icon, a non-bookmarked Blackboard Resource becomes bookmarked, and vice versa.
        1. Bookmarking a Blackboard Resource will create a Bookmark that links the Blackboard Resource to a bookmark bar.
            1. The bookmark bar is visible on every page on Blackboard.
            2. The bookmark bar holds bookmarked items by users.
            3. When the bar becomes filled, additional bookmarks get sent to a dropdown menu
            4. Interacting with the bookmarks on the bar or dropdown menu leads to either opening an Edit Box or sending the user to the location of the bookmarked item.
        2. Unbookmarking a Blackboard Resource will remove the Bookmark that is linked to the Blackboard Resource from the fixed bookmark bar.
2. An Edit box will appear when interacting with bookmarks and Blackboard resources icons.
    1. Allows the user to create an empty Blackboard Folder.
        1. Blackboard Folder used to hold Bookmark Resources.
        2. Cannot add a Bookmark Folder inside a Bookmark Folder.
        3. Located inside the bookmark bar.
    2. Allows users to add bookmarked items to the folder.
    3. Allows users to add/remove bookmarks and bookmark folders from the bar.
    4. Allows users to rename bookmarks.
